Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Accounting is the art of recording, summarizing, reporting, and analyzing financial transactions. An accounting system can be a simple, utilitarian check register, or, as with Microsoft Office Accounting, it can be a complete record of all the activities of a business, providing details of every aspect of the business, allowing the analysis of business trends, and providing insight into future ...
