Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.

Every minute, some 15 children die around the world, from poverty, easily preventable diseases, illnesses, and related causes. This rarely makes the headline news that one might expect such a tragedy to do.

Today, around 21,000 children died around the world

In new estimates released, WHO reports that in 2012 around 6.5 million people died as a result of air

pollution exposure from ambient and household air pollution.
