The Geology Division protects public health and safety through geologic mapping and identification of natural hazards.

Welcome to DEC | Department of Environmental Conservation

Because of Mr. Oram background in Environmental Pollution Control and research on removal mechanisms for the parasitic protozoan Giardia, B.F. Environmental Consultants has been involved with developing Sourcewater Protection Plans, Private Well Ordinances, and Regional Watershed/ Groundwater Assessments.

B.F. Environmental Consultants Geology Hydrogeology Soils

The Department of Environmental Sciences is an interdisciplinary group of ecologists and geologists whose research and teaching interests address human impacts on the environment, Earth surface processes, and ecosystem science.

The Department of Environmental Sciences is an

Geology (from the Ancient Greek $\gamma\acute{\alpha}\lambda\alpha$, $g\acute{\alpha}$ ("earth") and $-\acute{\alpha}\lambda\omicron\gamma\acute{\iota}\alpha$, -logia, ("study of", "discourse")) is an earth science concerned with the solid Earth, the rocks of which it is composed, and the processes by which they change over time. Geology can also refer to the study of the solid features of any terrestrial planet or natural satellite such as Mars or the Moon.

Geology - Wikipedia

Our Faculty. Our students have access to an unusually broad and diverse group of faculty, with more than 40 scholars from a range of synergistic disciplines. This diverse platform for creative, interdisciplinary approaches to environmental issues will help equip you with the skills you need to address today's pressing environmental challenges.

School of the Earth, Ocean and Environment - School of the

Environmental science is an interdisciplinary academic field that integrates physical, biological and information sciences (including ecology, biology, physics, chemistry, plant science, zoology, mineralogy, oceanography, limnology, soil science, geology and physical geography ()), and atmospheric science) to the study of the environment, and the solution of environmental problems.

Environmental Awareness - Naturalist Intelligence Environment is the area in which we live and share. The thin layer of air that surrounds our planet that supports life. Humans are the only kind of life that we know of that exists in our universe. If we did not have our environment we could not exist.

Environmental Awareness - Naturalist Intelligence

Why is Coastal Community Resilience Important? Resilience is the capacity of human and natural systems to adapt to and recover from change. To continue to enjoy living and receiving the benefits the Gulf of Mexico coastal region has to offer, there is a need to make the natural, built, and social environments more resilient.
