Job Description: Matrix Design Group, Inc., (Matrix) an employee-owned planning, engineering and environmental consulting firm is seeking an Entry-level Water Resources Engineer to join our group in our Colorado Springs office.

The Association of State Floodplain Managers | ASFPM

Program. Description. Online Tutorials. HEC-RAS. The U.S. Army Corps of Engineers (USACE) Hydrologic Engineering Center's River Analysis System (HEC-RAS) computer program supersedes its HEC-2 computer program, which was widely used in the preparation of studies and restudies for the National Flood Insurance Program (NFIP).

Software | FEMA.gov

HEC-RAS is a computer program that models the hydraulics of water flow through natural rivers and other channels. Prior to the recent update to Version 5.0 the program was one-dimensional, meaning that there is no direct modeling of the hydraulic effect of cross section shape changes, bends, and other two- and three-dimensional aspects of flow.
