The information society evolving landscapes pdf

In an Epilogue, new pointers are given for action. In what follows, we describe the rationale behind "The Information Society: Evolving Landscapes"; we move from the conference held at the University of Namur in June, 1988, which shaped the perspectives, then on to the various routes by which the landscapes can be traversed.

The Information Society: Evolving Landscapes | SpringerLink

Abstract. This paper examines the role of computers in daily human activity from the perspective of the full integration hypothesis. The full integration hypothesis assumes that as information technology evolves it will influence and support virtually every aspect of daily life and work life.
